Project Title and Short Abstract (with emphasis on nano-relevance*)

* Projects not associated with nanoscale science and technology will be allocated time on a special low-priority queue which will be active only when resources are not required by jobs from other queues

Brief Explanation Regarding MPI capability:

Resource Requirements:

CPU time (in hours per node)

-

RAM required (GB)

-

Disk Space for Permanent Files (GB)

-

Typical Number of nodes Required in parallel

-
